Re: Notice Information for Small Mining Operation, Daggett County Pit, S/009/004, Daggett County, Utah

Dear Sirs:

Thank you for submitting your \$100.00 annual permit fee which was received August 17, 1998, for the Daggett County Pit located in Section 29, T3N, R20E, Daggett County, Utah. In reviewing our files we found we are lacking a small mine notice of intention for this project. Our office became aware of this operation through the School and Institutional Trust Lands Administration (SITLA) and that is why we have no formal mining notice. We understand that SITLA instructed you to close up the pit. We understand the pit was closed and you are now working off the stockpiled material.

Please find enclosed a copy of our MR-SMO form for your use. Please complete this form for your project and return it to our office within the next 30 days. Feel free to make copies of the blank forms to keep on hand for future operations. Please keep a copy of the completed forms for your own records. We realize these forms request some information which we already have, but please bear with the inconvenience and complete the forms so we have all the necessary information in one place. Please add additional pages to the forms if necessary to adequately describe your projects or individual site conditions.

If you have any questions while completing these forms, please call me at (801) 538-5267 or Joelle Burns at (801) 538-5291. We will provide SITLA with copies of the information your submit. Thank you for your cooperation.

Sincerely,

Anthony A. Gallegos
Senior Reclamation Specialist
